# PAIN MANAGEMENT PLUS, PLLC

## CONTROLLED SUBSTANCE TREATMENT AGREEMENT

**Patient Name:** \_\_\_\_\_ **Date of Birth:** \_\_\_\_\_

Controlled substance (narcotic) treatment for chronic pain and/or substance dependence is used to reduce pain/withdrawal symptoms and improve what you are able to do each day. Along with controlled substance treatment, other medical care may be prescribed to help improve your ability to do daily activities. This may include exercise, use of non-narcotic analgesics, physical therapy, psychological counseling or other therapies or treatment. Vocational counseling may be provided to assist in your return to work effort.

To the doctor: Keep signed originals in your file; give a photocopy to the patient. Renew at least every 6 months. I understand that compliance with the following guidelines is important in continuing pain treatment with our providers at Pain Management Plus, PLLC.

1. I understand that I have the following responsibilities:
  - a. I will take medications only at the dose and frequency prescribed.
  - b. I will not increase or change medications without the approval of this doctor.
  - c. I will actively participate in RTW efforts and in any program designed to improve function (including social, physical, psychological and daily or work activities).
  - d. I will not request controlled substances or any other pain medicine from physicians other than from this doctor. This doctor will approve or prescribe all other mind- and mood-altering drugs.
  - e. I will inform this doctor of all other medications that I am taking.
  - f. I will obtain all medications from one pharmacy, when possible known to this doctor with full consent to talk with the pharmacist given by signing this agreement.
  - g. I will protect my prescriptions and medications.
  - h. I will keep all medications from children.
  - i. I agree to participate in psychiatric or psychological assessments, if necessary.
  - j. If I have an addiction problem, I will not use illegal or street drugs or alcohol.

This doctor may ask me to follow through with a program to address this issue. Such programs may include the following:

- 12-step program and securing a sponsor
- Individual counseling
- Inpatient or outpatient treatment
- Other: \_\_\_\_\_

2. I understand that in the event of an emergency, this doctor should be contacted and the problem will be discussed with the emergency room or other treating physician. I am responsible for signing a consent to request record transfer to this doctor. No more than 3 days of medications may be prescribed by the emergency room or other physician without this doctor's approval.

3. I understand that I will consent to random drug screening. A drug screen is a laboratory test in which a sample of my urine or blood is checked to see what drugs I have been taking.

4. I will keep my scheduled appointments and/or cancel my appointment a minimum of 24 hours prior to the appointment.

5. I understand that this doctor may stop prescribing controlled substances or change the treatment plan if:

- a. I do not show any improvement in pain from controlled substances or my physical activity has not improved.
- b. My behavior is inconsistent with the responsibilities outlined in #1 above.
- c. I give, sell or misuse the controlled substance medications.
- d. I develop rapid tolerance or loss of improvement from the treatment.
- e. I obtain controlled substances from other than this doctor.
- f. I refuse to cooperate when asked to get a drug screen.
- g. If an addiction problem is identified as a result of prescribed treatment or any other addictive substance.
- h. If I am unable to keep follow-up appointments.

**CONTROLLED SUBSTANCE TREATMENT AGREEMENT (continued)**

**YOUR SAFETY RISKS WHILE WORKING UNDER THE INFLUENCE OF CONTROLLED SUBSTANCES:**

You should be aware of potential side effects of controlled substances such as decreased reaction time, clouded judgment, drowsiness and tolerance. Also, you should know about the possible danger associated with the use of controlled substances while operating heavy equipment or driving.

**SIDE EFFECTS OF CONTROLLED SUBSTANCES:**

- Confusion or other change in thinking abilities
- Problems with coordination or balance that may make it unsafe to operate dangerous equipment or motor vehicles
- Breathing too slowly – overdose can stop your breathing and lead to death
- Nausea
- Sleepiness or drowsiness
- Vomiting
- Constipation
- Aggravation of depression
- Dry mouth

**THESE SIDE EFFECTS MAY BE MADE WORSE IF YOU MIX CONTROLLED SUBSTANCES WITH OTHER DRUGS, INCLUDING ALCOHOL.**

**RISKS:** • Physical dependence. This means that abrupt stopping of the drug may lead to withdrawal symptoms characterized by one or more of the following:

- |                                      |                  |
|--------------------------------------|------------------|
| Runny nose                           | Sweating         |
| Difficulty sleeping for several days | 'Goose bumps'    |
| Diarrhea                             | Rapid heart rate |
| Abdominal cramping                   | Nervousness      |

- Psychological dependence. This means it is possible that stopping the drug will cause you to miss or crave it.
- Tolerance. This means you may need more and more drug to get the same effect.
- Addiction. A small percentage of patients may develop addiction problems based on genetic or other factors.
- Problems with pregnancy. If you are pregnant or contemplating pregnancy, discuss with your physician.

**PAYMENT OF MEDICATIONS:** State law forbids L&I from paying for controlled substances once the patient reaches maximum medical improvement. You and your doctor should discuss other sources of payment for controlled substances when L&I can no longer pay.

**RECOMMENDATIONS TO MANAGE YOUR MEDICATIONS:**

- Keep a diary of the pain medications you are taking, the medication dose, time of day you are taking them, their effectiveness and any side effects you may be having.
- Use of a medication box that you can purchase at your pharmacy that is already divided in to the days of the week and times of the day so it is easier to remember when to take your medications.
- Take along only the amount of medicine you need when leaving home so there is less risk of losing all your medications at the same time.

I have read this document, understand and have had all my questions answered satisfactorily. I consent to the use of controlled substances to help control my pain and I understand that my treatment with controlled substances will be carried out as described above.
